AN ACT to amend the public health law and the general business law, in relation to medical use of marihuana

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings and intent. The legislature finds that thousands of New Yorkers have serious medical conditions that can be improved by medically-approved use of marihuana. The law should not stand between them and treatment necessary for life and health. This legislation follows the well-established public policy that a controlled substance can have a legitimate medical use. Many controlled substances that are legal for medical use (such as morphine and steroids) are illegal for any other use. The purposes of article 33 of the public health law include allowing legitimate use of controlled substances in health care, including palliative care. This policy and this legislation do not in any way diminish New York state’s strong public policy and laws against illegal drug use, nor should it be deemed in any manner to advocate, authorize, promote, or legally or socially accept the use of marihuana for children or adults, for any non-medical use. This legislation is an appropriate exercise of the state’s legislative power to protect the health of its people under article 17 of the state constitution and the tenth amendment of the United States constitution.

EXPLANATION—Matter in ITALICS (underscored) is new; matter in brackets [ ] is old law to be omitted.

S. 4041--B 2

It is the legislative intent that this act be implemented consistently with these findings and principles, through a reasonable and workable system with appropriate oversight, evaluation and continuing research.
