(d)

(1) There exists a rebuttable presumption that a qualifying patient is engaged in the medical use of cannabis if the qualifying patient:

(A) Is in possession of a program identification card; and

(B) Is in possession of an amount of cannabis that does not exceed the amount permitted under this part.

(2) The presumption may be rebutted by evidence that conduct related to cannabis was not for the purpose of alleviating the qualifying patient’s debilitating medical condition or symptoms associated with the medical condition.

(e) A practitioner shall not be subject to arrest, prosecution, or penalty in any manner or denied any right or privilege, including, but not limited to, civil penalty or

(i) A program identification card or its equivalent issued under the laws of another state, United States territory, or the District of Columbia to permit the medical use of cannabis by a patient with a debilitating medical condition, or to permit a person to assist with the medical use of cannabis by a patient with a debilitating medical condition, shall not have the same force and effect as a program identification card. An

out-of-state patient must be evaluated and certified for Safe Access program participation by a practitioner licensed and qualified to do so in this state in order to obtain medical cannabis from the Safe Access program.

(j) For purposes of medical care, including organ transplants, a registered qualifying patient's authorized use of cannabis is considered the equivalent of the authorized use of any other medication used at the direction of a physician and does not constitute the use of an illicit substance.

SECTION 5.

(a) Enrollment in the Safe Access program shall be conducted at participating pharmacies and regulated dispensaries. For a qualifying patient to be enrolled in the program:

(1) The qualifying patient's practitioner, with whom the patient has a bona fide patient-practitioner relationship, shall complete a full assessment of the qualifying patient's medical history;
